.08528	Per KWH for the next 340,000 KWH of usage
.08000	Per KWH for all usage in excess of 400,000 KWH

Customer's Billing KW Demand: The highest of the following:

- (3) The average KW supplied during the 15-minute period of the greatest use during the month.
- (4) 70% of the highest billing KW established in the twelve month period ending with the current month.
- (3) 200 KW

Minimum Bill: \$600.00

Primary Delivery and/or metering:

The customer may elect to take service at the primary voltage that is available at the service location. When customer takes service at such primary voltage and provides all facilities necessary to take service at this voltage, customer's demand charge, before adjustments, will be reduced \$0.20 per KW for nominal 13,800 volt delivery. When metering is at such primary voltage a discount of 1% will be made in the measured quantities for billing purposes.
